8	1606810168	Lakshay	CS	Y	there should be atleast one lecture for sports every day
9	1606810170	Madhav Tyagi	CS	Y	should focus on training regarding department rather than teaching

14	1606810096	Atul chaudhary	CS	Y	in cs department the major difference comes on skills, or not on campus/university. The major work of the college is to provide exposure which might lag at. Please start more hackathons, algorithm question and mentorship
15	1606810345	Ujjwal saxena	CS	Y	please provide coding on systems. Rather than performing them on white boards & please form a proper structure for scheduling labs for coding & please don't cancel labs if your stayboards haven't finished

32	1606810207	naman chikana	CS	Y	given that we're affiliated by aktu we have to study/ teach these subjects. But it would be better for students to focus on coding rather than percentage/attendance. Maybe select a few students and given them freedom. (for attendance)

53	1606813040	Rishabh	CS	Y	faculties are not skilled and very irresponsible towards their duties. Internal marks are not given fairly and that makes students ineligible to sit in placement derive. Overall experience was worst. I could have hated below zero, literally no MNC visit the campus to hire. there are take placement packages shown on social media to attract innocent students. if someone has done B.tech from MIET and after that he does some higher studies from abuoad on other college then MIET did noting in his her placement so shop showing those fake posts on your social media accounts. faculties are irresponsible at true hieghts. they don't even check your sessional sheets and marks you absent. i was asked to write the truth. so i wrote if iwas asked to write good things then i world have thought about that too.

60	1606810235	Prateek grover	CS	Y	marks don't define a student, but in MIET they are considered the defining factor, someone should work on that.

61	1606810229	pragya mittal	CS	Y	the teacher who used to teach us in first and second year were mostly excellent, but from third year (particularly sem 6) we were not taught by a good teachers. Also the classes are dirty and its very intolerable during slot weather.

At go also one very important point that i feel is that students are not at all aware about competative programmimg. there is not a very good coding culture in the college. in many very good colleges other than IIT's and NIT's this culture is followed and this helps the students in the very in final year of their engineering that whatis it's importance. also along with that submission of projects should be made strict so that students will learn as latest technologies. hope this helps thankyou
17	1606813044	shashwat rai	UNKNOWN	Y	please support the student of your college in campus placement.
